Project Name	Testinternal (Landing Page- Assembly)
Website	https://testinternal.p2p-internaldev.com/adm
Created By	Team 4
Date	15-07-2024

TC#ID	Test_Description	Pre Steps
TC-001	Verify the admin able to add the HTML block from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-002	Check if the admin able to edit the HTML block	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-003	Validate the admin able to active the content block	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-004	Verify that admin able to delete the HTML content block	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-005	Check if the admin able to view the content page for HTML content block	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-006	Verify the admin able to add the Hero image from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"

TC-007	Validate the admin able to active the Hero image	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-008	Verify that admin able to delete the Hero image	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-009	Check if the admin able to view the content page for Hero image	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-010	Verify the admin able to add the Announcement from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-011	Validate the admin able to active the Announcement	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-012	Verify that admin able to delete the Announcement	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-013	Check if the admin able to view the content page for Announcement	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"

TC-014	Verify the admin able to add the Main data from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-015	Validate the admin able to active the Main data	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-016	Verify that admin able to delete the Main data	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-017	Check if the admin able to view the content page for Main data	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-018	Verify the admin able to add the Type & duration from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-019	Validate the admin able to active the Type & duration	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-020	Verify that admin able to delete the Type & duration	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"

TC-021	Check if the admin able to view the content page for Type & duration	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-022	Verify the admin able to add the Metadata from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-023	Validate the admin able to active the Metadata	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-024	Verify that admin able to delete the Metadata	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-025	Check if the admin able to view the content page for Metadata	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-026	Verify the admin able to add the Dates metadata from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-027	Validate the admin able to active the Dates metadata	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"

TC-028	Verify that admin able to delete the Dates metadata	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-029	Check if the admin able to view the content page for Dates metadata	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-030	Verify the admin able to add the Social networks from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-031	Validate the admin able to active the Social networks	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-032	Verify that admin able to delete the Social networks	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-033	Check if the admin able to view the content page for Social networks	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-034	Verify the admin able to add the Last activity from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"

TC-035	Check if the admin able to edit the Last activity	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-036	Validate the admin able to active the content block	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-037	Verify that admin able to delete the Last activity	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-038	Check if the admin able to view the content page for Last activity	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-039	Verify the admin able to add the Statistics from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-040	Validate the admin able to active the Statistics	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-041	Verify that admin able to delete the Statistics	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"

TC-042	Check if the admin able to view the content page for Statistics	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-043	Verify the admin able to add the Related assemblies from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-044	Check if the admin able to edit the Related assemblies	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-045	Validate the admin able to active the Related assemblies content block	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-046	Verify that admin able to delete the Related assemblies	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-047	Check if the admin able to view the content page for Related assemblies	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-048	Verify the admin able to add the Related documents from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"

TC-049	Check if the admin able to edit the Related documents	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-050	Validate the admin able to active the Related documents	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-051	Verify that admin able to delete the Related documents	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-052	Check if the admin able to view the content page for Related documents	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-053	Verify the admin able to add the Related images from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-054	Validate the admin able to active the Related images	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-055	Verify that admin able to delete the Related images	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"

TC-056	Check if the admin able to view the content page for Related images	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-057	Verify the admin able to add the Upcoming meetings from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-058	Check if the admin able to edit the Upcoming meetings	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-059	Validate the admin able to active the Upcoming meetings content block	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-060	Verify that admin able to delete the Upcoming meetings	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-061	Check if the admin able to view the content page for Upcoming meetings	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-062	Verify the admin able to add the Posts from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"

TC-063	Check if the admin able to edit the Posts	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-064	Validate the admin able to active the Posts content block	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-065	Verify that admin able to delete the Posts	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-066	Check if the admin able to view the content page for Posts	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-067	Verify the admin able to add the Proposals from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-068	Check if the admin able to edit the Proposals	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-069	Validate the admin able to active the Proposals	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"

TC-070	Verify that admin able to delete the Proposals	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-071	Check if the admin able to view the content page for Proposals	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-072	Verify the admin able to add the Results from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-073	Check if the admin able to edit the Results	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-074	Validate the admin able to active the Results	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-075	Verify that admin able to delete the Results	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-076	Check if the admin able to view the content page for Results	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"

TC-077	Verify the admin able to add the Related processes from assembly	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-078	Check if the admin able to edit the Related processes	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-079	Validate the admin able to active the Related processes	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-080	Verify that admin able to delete the Related processes	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"
TC-081	Check if the admin able to view the content page for Related processes	1. Open URL(https://testinternal.p2p-internaldev.com/admin) 2. Click on login 3. Enter login in details 4. Click on Sign In 5. Click on Admin Dashboard 6. Click on Assembly 7. Select "assembly" 8. Click on "Landing Page"

Steps to reproduce	Test Data	Excepted Results	Actual Results	Status
9. Clcik on "Add content block" 10. Clcik on "HTML blockk"	yohitha@pearlt houghts.com / 0g7TxmuZlrcvi oD	Admin able to add the HTML block successfully	As excepted	Pass
9. Clcik on "HTML blockk" 10. Clcik on "Edit"	yohitha@pearlt houghts.com / 0g7TxmuZlrcvi oD	Admin able to edit the HTML block successfully	It is displaying an error page as "There was a problem with our server"	Fail
9. Select any content block 10. Drag the content block from inactive to active	yohitha@pearlt houghts.com / 0g7TxmuZlrcvi oD	Admin able to inactive content block to active content block successfully	As excepted	Pass
9. Select HTML content block 10. Click on delete 11. Click on "Ok"	yohitha@pearlt houghts.com / 0g7TxmuZlrcvi oD	Admin able to delete the HTML content block successfully	As excepted	Pass
9. Click on "See assembly"	yohitha@pearlt houghts.com / 0g7TxmuZlrcvi oD	Admin able to view the HTM content page	As excepted	Pass
9. Clcik on "Add content block" 10. Clcik on "Hero image"	yohitha@pearlt houghts.com / 0g7TxmuZlrcvi oD	Admin able to add the Hero image successfully	As excepted	Pass

9. Select the Hero image content 10. Drag the content block from inactive to active	yohitha@pearlthoughts.com / 0g7TxmuZlrcvioD	Admin able to inactive content block to active content block successfully	As excepted	Pass
9. Select Hero image 10. Click on delete 11. Click on "Ok"	yohitha@pearlthoughts.com / 0g7TxmuZlrcvioD	Admin able to delete the Hero image successfully	As excepted	Pass
9. Click on "See assembly"	yohitha@pearlthoughts.com / 0g7TxmuZlrcvioD	Admin able to view the Hero image	As excepted	Pass
9. Clcik on "Add content block" 10. Clcik on "Announcement"	yohitha@pearlthoughts.com / 0g7TxmuZlrcvioD	Admin able to add the Announcement successfully	As excepted	Pass
9. Select the Announcement content 10. Drag the content block from inactive to active	yohitha@pearlthoughts.com / 0g7TxmuZlrcvioD	Admin able to inactive content block to active content block successfully	As excepted	Pass
9. Select Announcement 10. Click on delete 11. Click on "Ok"	yohitha@pearlthoughts.com / 0g7TxmuZlrcvioD	Admin able to delete the Announcement successfully	As excepted	Pass
9. Click on "See assembly"	yohitha@pearlthoughts.com / 0g7TxmuZlrcvioD	Admin able to view the Announcement	As excepted	Pass

9. Clcik on "Add content block" 10. Clcik on "Main data"	yohitha@pearlt houghts.com / 0g7TxmuZlrcvi oD	Admin able to add the Main data successfully	As excepted	Pass
9. Select the Main data content 10. Drag the content block from inactive to active	yohitha@pearlt houghts.com / 0g7TxmuZlrcvi oD	Admin able to inactive content block to active content block successfully	As excepted	Pass
